

Serial No.: 09/812,074
Filing Date: March 19, 2001
Preliminary Amendment

Amendments to the Claims:

Please add the following new claim 39:

39. (new) A method of claim 13, wherein the nucleic acid molecule of at least 15 nucleotides capable of specifically hybridizing with an isolated nucleic acid molecule encoding an inward rectifier, G-protein activated, mammalian, potassium KGA channel is labeled with a detectable marker.
